

[Invalid] Markup Validation of design (2).html - W3C Markup Validator - Windows Internet Explorer

http://validator.w3.org/check

Line 16, Column 6: document type does not allow element "li" here; missing one of "ul", "ol", "menu", "div" start-tag

```
<li><strong>Determine the Goals of the Site</strong><br />
```

The mentioned element is not allowed to appear in the context in which you've placed it; the other mentioned elements are the only ones that are both allowed there and can contain the element mentioned. This might mean that you need a containing element, or possibly that you've forgotten to close a previous element.

One possible cause for this message is that you have attempted to put a block-level element (such as "<p>" or "<table>") inside an inline element (such as "<a>", "", or "").

Line 20, Column 6: document type does not allow element "li" here; missing one of "ul", "ol", "menu", "div" start-tag

```
<li><strong>Determine the General Content and Create a Site
```

The mentioned element is not allowed to appear in the context in which you've placed it; the other mentioned elements are the only ones that are both allowed there and can contain the element mentioned. This might mean that you need a containing element, or possibly that you've forgotten to close a previous element.

One possible cause for this message is that you have attempted to put a block-level element (such as "<p>" or "<table>") inside an inline element (such as "<a>", "", or "").

Line 25, Column 6: document type does not allow element "li" here; missing one of "ul", "ol", "menu", "div" start-tag

```
<li><strong>Sketch a Tentative Page Layout</strong><br />
```

The mentioned element is not allowed to appear in the context in which you've placed it; the other mentioned elements are the only ones that are both allowed there and can contain the element mentioned. This might mean that you need a containing element, or possibly that you've forgotten to close a previous element.

One possible cause for this message is that you have attempted to put a block-level element (such as "<p>" or "<table>") inside an inline element (such as "<a>", "", or "").

Line 30, Column 5: end tag for "li" omitted, but OMITTAG NO was specified

```
</li>
```

You may have neglected to close an element, or perhaps you meant to "self-close" an element, that is, ending it with "?>" instead of ">".
